

INTERCHANGES

File Geodatabase Feature Class

Tags

Interchange, Crossroad

Summary

The dataset was created for the purposes of providing the official NDOT interchange name designation.

Description

The dataset allows NDOT personnel not familiar with all interchanges locations or names to search for location of named intersections.

Credits

Nevada Department of Transportation, Location Division, GIS Section, Roadway Systems Division.

Access and use limitations

Reference and acknowledge the Nevada Department of Transportation in products derived from this data. This dataset was compiled on the (NDOT) computer system at headquarters in Carson City, NV. The data can be used for mapping and data purposes only. No liability is assumed for the current accuracy or utility of the data on any system or for general , scientific purposes. Requestor agrees to assure and hold harmless the Nevada Department of Transportation, their agents, consultants, contractors and employees from any and all liability claims or damages to any person arise from or connected with the use of the data obtained in the GIS.
