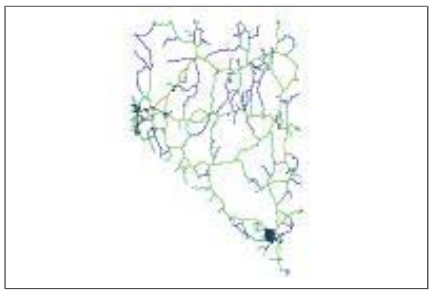
NDOT.ROADS

File Geodatabase Feature Class



Tags

Nevada Roads, NDOT Roads, Nevada State Roads, Functionally classed Roads, Roads.

Summary

The overall purpose of the NDOT.ROADS dataset is to create a managed dataset that will include all state, federal, and county roads inside of Nevada state boundary and managed or tracked by the Nevada Department of Transportation.

Description

The NV_ROADS dataset was generated from a collection of different datasets. NDOT.ROADS dataset is a work in progress and is in the process of continually being updated.

Credits

The GIS department of the Nevada Department of Transportation.

Use limitations

Requestor hereby releases the Nevada Department of Transportation (NDOT), their agents, consultants, contractors or employees from any and all claims, actions, or causes of action for damages including, but not limited to any costs of recovering, reprogramming or reproducing any programs or data stored in or used with the GIS data. This dataset was complied on the (NDOT) computer system at headquarters in Carson City, NV. No liability is assumed for the current accuracy or utility of the data on any system or for general / scientific purposes. Requestor agrees to assure and hold harmless the Nevada Department of Transportation, their agents, consultants, contractors and employees from any and all liability claims or damages to any person arise from or connected with the use of the data obtained in the GIS Reference and acknowledge the Nevada Department of Transportation- Location division in products derived from this data. Reference and acknowledge the Nevada Department of Transportation in products derived from this data.
